

Julie Cohn Awarded IEEE Fellowship in Electrical History

The **Institute of Electrical and Electronics Engineers (IEEE)** History awarded **Julie Cohn**, a Ph.D. candidate in University of Houston History Department, the **2010-2011 IEEE Life Member Fellowship in Electrical History**. The IEEE Fellowship in Electrical History supports one year of full-time graduate work in the history of electrical science and technology at a college or university of recognized standing. The Fellowship will begin in June 2010.

Julie plans to apply this fellowship to research for her dissertation, currently titled "Expansion for Conservation: The Growth of North America's Power Grid through the Twentieth Century." The History Department faculty is delighted to celebrate Ms. Cohn's latest accomplishment.
