4-ORGING
INTO THE FUTURE

On the Agenda

- Why is supporting access important?
- What is Universal Design?
- Who make up the disability community?
- Examples of good and bad design
- Creating a culture of access

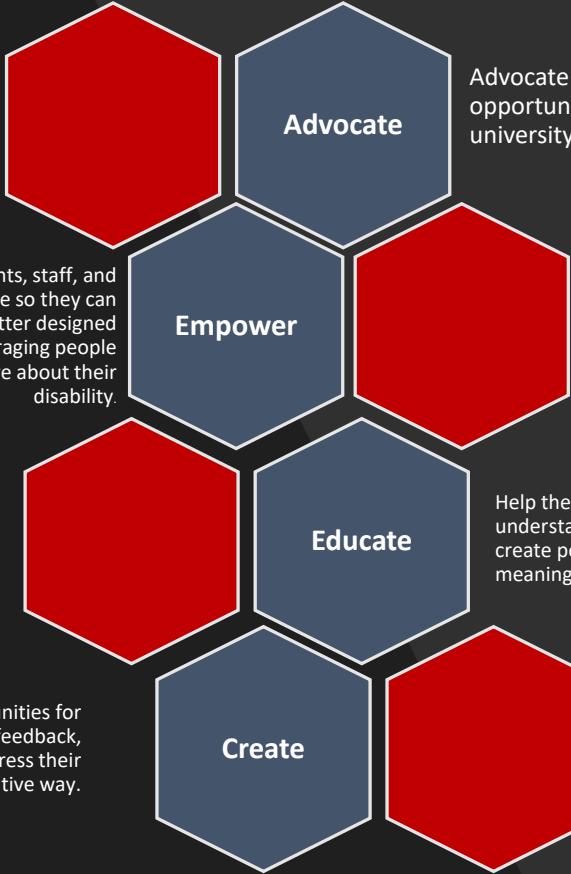

Justin Dart, Jr.
Student Accessibility Center

Division of Student Affairs

Advocacy and Empowerment

Advocate

Advocate for inclusive opportunities for everything the university has to offer.

Empower

Empower students, staff, and faculty with knowledge so they can create better designed environments, encouraging people to feel positive about their disability.

Educate

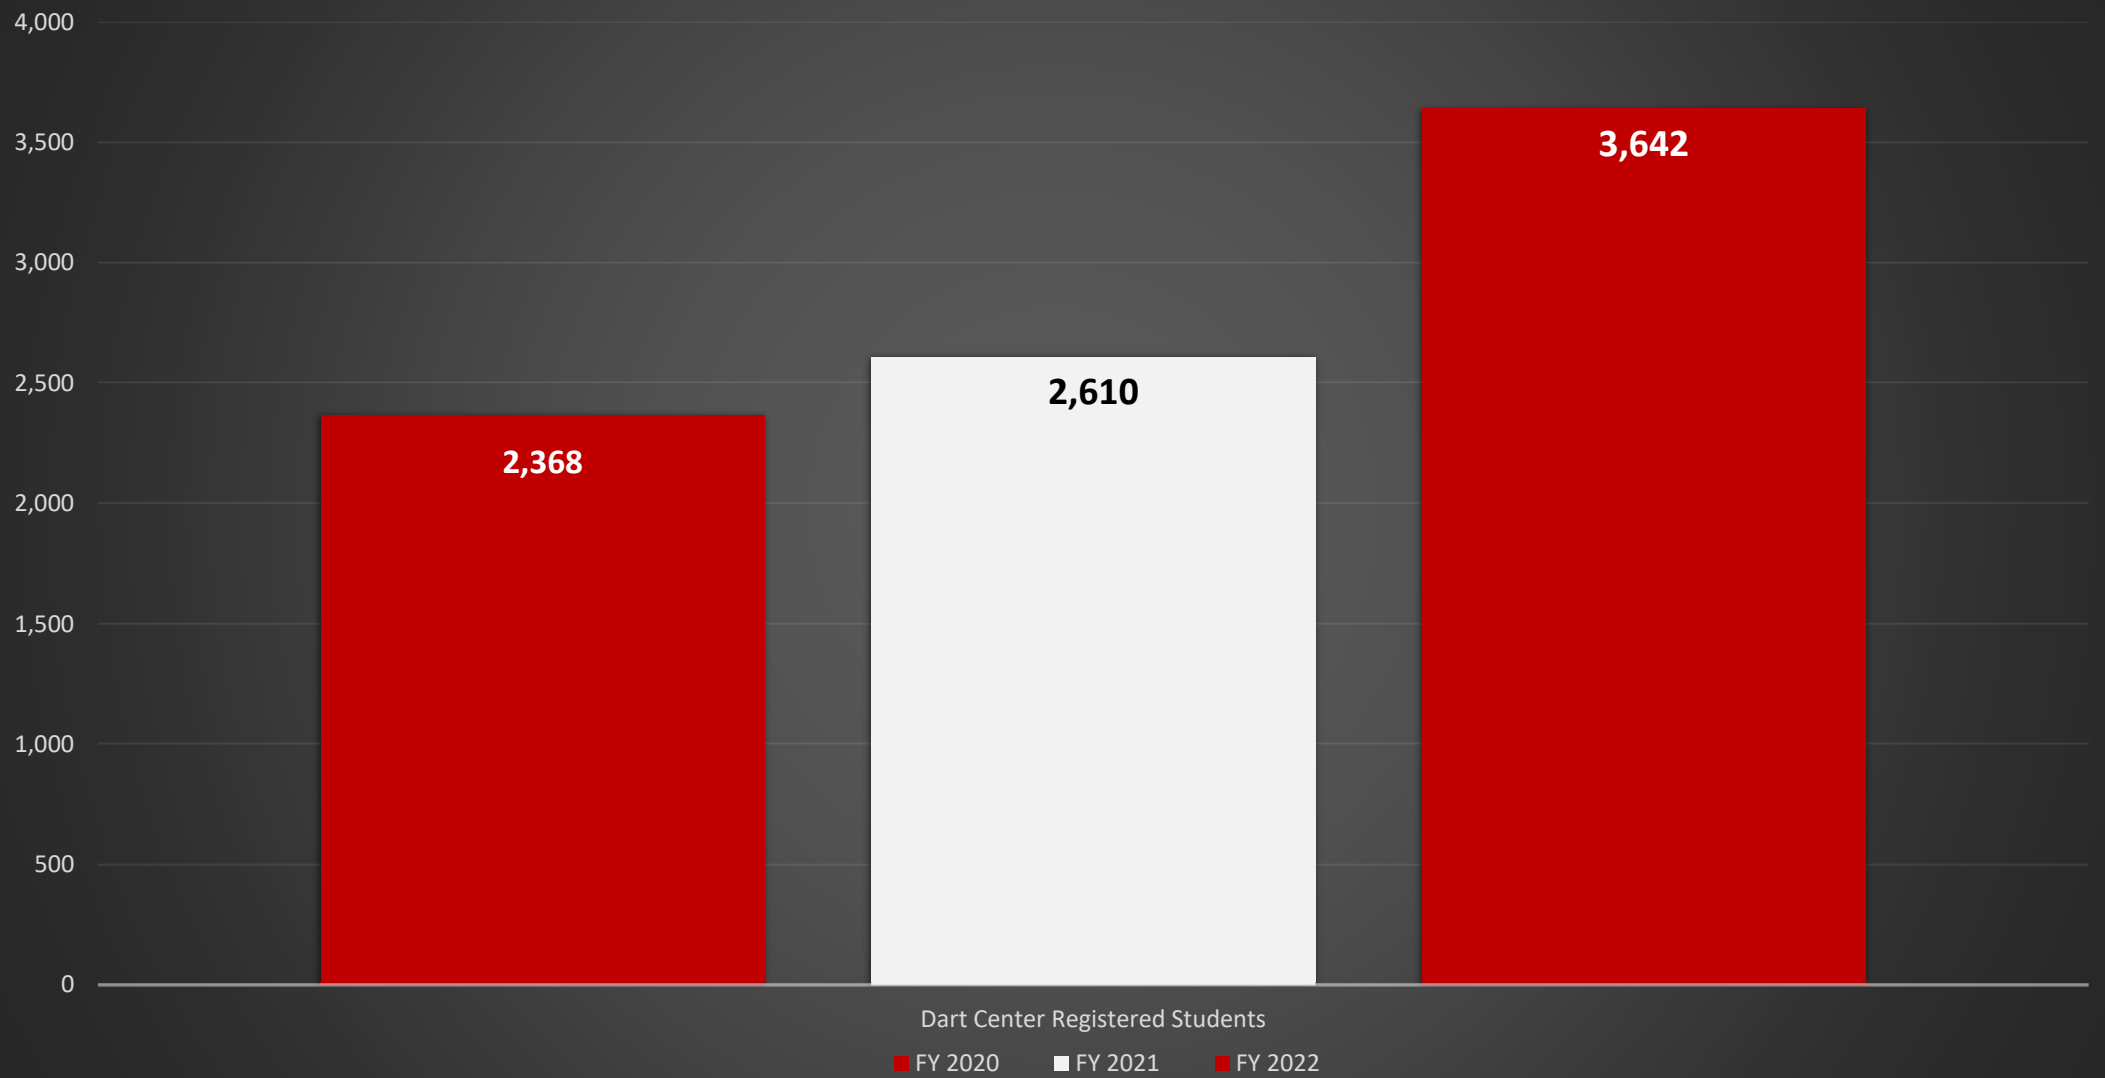

Help the University better understand disability issues and create policies that promote meaningful change.

Create

Create opportunities for students to provide feedback, get engaged and express their concerns in a positive way.

Actively Registered Students –Dart Center, Main Campus

Accommodations & Services

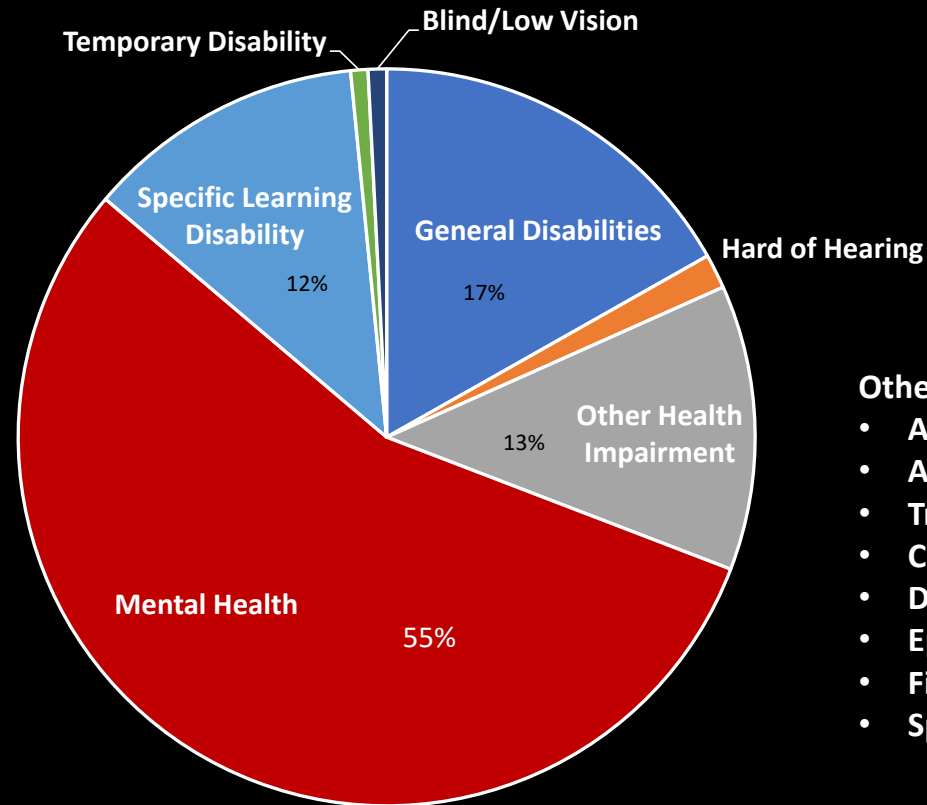

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

- Extended test time
- Distraction reduced testing
- Alternative format
- Sign language interpreters and CART or Communication Access-Real-Time
- Note taking support
- Priority seating
- Accessible furniture
- E-text or Audio books
- Assistive Technology training
- Campus events
- Study abroad
- Disability Dragons Connect (student group)
- Academic honor society
- Housing Accommodations
- Other accommodations are based on documentation

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

Disability Types

Mental Health include:

- ADHD/ADD
- Anxiety
- Depression
- PTSD
- Schizophrenia
- Tourette's Syndrome
- Bipolar Disorder
- OCD

Other Health Impairment:

- Arthritis
- Asthma
- Traumatic Brain Injury
- Cancer
- Diabetes
- Epilepsy
- Fibromyalgia
- Spinal Cord Injury

■ General Disabilities ■ Hard of Hearing ■ Other Health Impairment ■ Mental Health ■ Specific Learning Disability ■ Temporary Disability ■ Blind/Low Vision

What does Disability mean?

- Definition by the Americans with Disabilities Act or ADA is a person with a disability who has a physical or mental impairment that substantially limits one or more major life activity.
- Disability can be either visible or invisible
- Disabilities can be something a person is born with or acquired at any point in life.
- Disabilities beyond mobility disabilities which include; mental health disabilities, chronic illnesses, intellectual disabilities, and hearing and vision

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

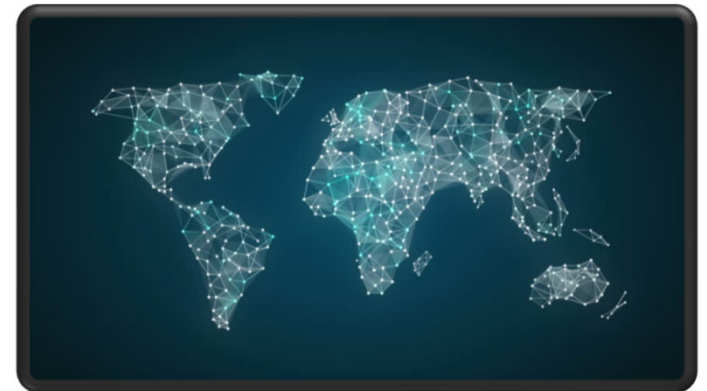

Disability is Global

- Over 1 billion people have disabilities or about 15% of the global population currently experience disability, and the number is increasing due in part to population ageing and an increase in the prevalence of noncommunicable diseases.
- The largest minority in the world is people who have disabilities.
- Disability can be visible or invisible
- Disability can be something you are born with or acquired later on in life.
- 26% of adults in the United States have some type of disability.
- Disability results from the interaction between people and their environment.
- People with disability have less access to education, work opportunities and more likely to live in poverty.
- Disability is experienced differently depending on culture.

WHO22/Forbes

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

Medical Model vs Social Model of Disability

- Fix the individual
 - Correct the deficit within the individual
 - Provide medical, vocational, or psychological rehabilitation services
- Remove barriers: physical, intellectual cultural and education
 - Create through accommodations, universal design, and inclusive learning environments

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

Universal Design – is the design and composition of an environment so that it can be accessed, understood and used to the greatest extent possible by all people regardless of their age, size, ability, or disability

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

- 1. Equitable use**
Same means of use for all.
- 2. Flexibility in Use**
Provide choice of methods of use.
- 3. Simple and Intuitive Use**
Arrange information consistency with importance
- 4. Perceptible Information**
Use different modes (pictorial, verbal, tactile) for redundant presentation of essential information.
- 5. Tolerance for Error**
Discourage unconscious action in tasks that require vigilance
- 6. Low physical effort**
Minimize repetitive actions
- 7. Size and space for approach and use**
Make reach to all components comfortable for any seated or standing user

Universal Design

- Incorporating Universal Design projects in different aspects of academic departments. Example work with students who are architecture majors – have them incorporate aspects in planning construction.
- Encourage new buildings to incorporate Universal Design
- Use existing repair projects as possible low-cost opportunities to improve existing structures for students with disabilities
- Collect student feedback about the social accessibility of places on campus
 - Closed captioning
 - Accessible door openers
 - Flexible seating
 - Instructions and procedures in sign and captioned

Good or Bad Design?

Good or Bad Design?

- Viewing angles
- Equal entrance/exit
- Table height/clearance

Adjustable Podium

Flexible seating options

Instructional Strategies

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

Use clear, consistent layouts/navigation

Descriptive wording for hyperlink

Caption videos and transcribe audio content

Don't overburden students with learning a large number of technology products (check with instructional design for accessibility)

- Make instructions clear for activities, projects, discussions and readings
- Make examples and assignments relevant
- Opportunities to practice
- Provide feedback on project parts and offer corrective opportunities

Benefits all Students!

- Multiple means of representation
- Multiple means of action an expression
- Multiple means of engagement
- Reduces learning barriers
- Allows for better focus on content and learning objectives
- Saves time
- Proactive approach to support students
- Does not eliminate the need for accommodations
- Minimizes the need for special accommodations

Justin Dart, Jr.
Student Accessibility Center
Division of Student Affairs

- **Braille embosser** that can print braille using a software called Duxbury, and using tactical view of the braille embosser can also print graphs
- **Thermal Printing** – use to provide 3D printed materials, tactile graphs, for individuals with low-vision and blindness
- **Portable closed circuit television (CCTV)** with optical character recognition software called magnilink which provides magnification of text and objects for individuals with low-vision.
- Dragon Natural Speaking Software
- One on one training for Assistive Technology

Campus Wide Access to Assistive Technology

- Any UH Faculty, staff, and student with a UH email address can download assistive technology for free
- Helps address cost for our students
- Creates more universal access across campus
- Connects people without disabilities to better understand the value this technology brings

You are viewing software available for UH Main - staff / sponsored.

Hi, Kyle Mutz. Windows ▾

Category	Download Product Information	Download
 Assistive Technology		
Accessibility software	JAWS, ZoomText, and Fusion	Accessibility software (off site) 
All students, faculty, and staff with an active email address are entitled to receive free home annual licenses for their personally owned equipment. Use your @uh.edu email address.		
If you need assistance with the software, please contact the Student Accessibility Center at 713-743-5400.		

Culture of Access

- Dart Attended close to 52 New Student Orientations this past Summer!
- Marketing to all new incoming students
- Since October 4th 2021 have conducted or participated in over 30 workshops or presentations to provide disability awareness

The event was attended by 40 colleagues from across the UH System. The focus of this year's program was collaboration and connecting – highlighting the important role of auxiliary services is impacting the student experience and helping to make connections between auxiliary services professionals and student affairs programs and services.

Join our esteemed panelists in a conversation around what it means to be in solidarity with different marginalized communities, and learn how you can move forward in your journey to being an active advocate for others.

The Justin Dart Jr. Student Accessibility Center or "Dart Center" welcomes you to the University of Houston!

Students with disabilities have many opportunities at the Dart Center to get involved and work with our staff to ensure your experience is an inclusive and equitable one. If you are a student who may have received accommodations in high school either a 504 or IEP plan, other universities/community colleges, have a physical disability, mental health, low vision or blind, Deaf/hard of hearing, and other health related challenges please feel free to reach out to us. Here are some of the exciting things the Dart Center can provide:

- Classroom accommodations
- Physical access
- Housing
- Event access
- Transition information
- Disability advocacy
- Assistive Technology
- Sign language interpreters
- CART or Communication Access Real Time
- Student centered events and volunteer opportunities

For more information please visit our website, call, or email. We are excited to meet and work with you on your academic goals for success! Go Coogs!!!

Supporting a Culture of Access and Inclusion

- *Engage with all people respectfully*
 - *People access information and navigate the world differently*
 - *People with disabilities are people first not their medical or health condition*
 - *Encourage and advocate for inclusive environments*
 - *Check your websites, content, documents, and media for accessibility*
 - *Research and seek out what others have done to support access*
 - *People communicate and navigate the world uniquely*
 - *Involve people with disabilities in planning*
