MEMORANDUM

July 20, 2011

To: Independent College and University Chief Reporting Officials
From: Doug Parker
Subject: Fall 2011 Reporting Manual

The *Reporting and Procedures Manual for Texas Independent Colleges and Universities* has been revised effective the fall semester 2011. It has been placed on the Coordinating Board website at <http://www.txhighereddata.org/ReportingManuals.cfm>. The *Appendices to the Reporting and Procedures Manual* can be accessed at the same address.

Below is a list of modifications made to the manual to conform to IPEDS terminology of the doctoral and first-professional levels. There are no programming changes.

CBM001

The following classification levels in Item #5 have been changed:

Doctoral changed to Doctor's Level-Research/Scholarship (code 7)
First-Professional changed to Doctor's Level-Professional Practice (codes 8, 9, C, E, T)

CBM009

The following degree levels in Item #8, Level of Award Conferred, have been changed:

Doctoral changed to Doctor's Degree-Research/Scholarship (code 4)
First-Professional changed to Doctor's Degree-Professional Practice (code 5)

FOREWORD

Independent Colleges and Universities **Performance Measures for the Tuition Equalization** **Grant (TEG) Program**

The reports discussed in this manual are for **Independent Colleges and Universities**.

The Coordinating Board welcomes the participation of independent colleges and universities in this data sharing effort. We believe that the resulting information will satisfy a legislative mandate and benefit participating institutions, policymakers, and the public.

We ask the participants in the data sharing effort to submit the following reports to the Coordinating Board on the dates indicated in this manual:

- (1) A student report (CBM001), submitted once a semester which contains student-level enrollment data; and
- (2) An annual graduation report (CBM009) which reports the previous year's graduates.

Why should you participate?

The student-level data that you submit will make it possible for the Coordinating Board to respond to the performance measures the Legislature has created for the Tuition Equalization Grant (TEG) program and other state-funded student financial aid programs. It may also allow the Coordinating Board to assist you – when requested – in completing certain IPEDs reports. In particular, participation in the CB database will make it possible to track the academic progress of students who leave your institution and enroll in public or other participating private higher education institutions in Texas.

Aggregate enrollment data from your institution will also be included in the Coordinating Board's statewide databases and will thus be available to you, the public, and policymakers.

Final Comments

Like you, we are participating in this effort because the Legislature requires certain information to evaluate the effectiveness of TEG and other financial aid programs and because we think it is a good idea. The Legislature has not provided funds for this effort, so this request is limited to accomplish this legislative mandate using only existing staff and resources.

General Information

All reports must be submitted electronically. (See detail in Electronic Data Transfer System section of manual.) A set of instructions for preparing the data in the Coordinating Board format is associated with each report.

ELECTRONIC DATA TRANSFER SYSTEM

The submission of CBM reports must be by electronic transfer. If any data items need to be changed, make the changes to your file and re-submit it as a complete report.

State and federal security requirements mandate that confidential data be transferred using a secure process. Since July 15, 2004 all files are required to be submitted or retrieved via SFTP (the secure FTP) server process. Connection to the SFTP File Server at the THECB is via Internet.

You may create the data file containing a header record, data records, and a trailer record by whatever method available.

The header record contains information to identify the type of data in the file and the length of the data records. The trailer record contains a record count of the actual number of data records, not including the header and trailer records, in the file. The record count in the trailer record will be used to verify that all records were transferred through the communication system.

The actual file name is not critical. Information in the header record is used to identify data contained in the file. To avoid possible confusion or loss of file by writing over a previously transferred file of the same name, make each file transferred a unique name.

In order to submit EDCCBM files, you must log into the SFTP server, sftp.thecb.state.tx.us, with a username and password.

For USERID: Enter "edcNNNNNN" where "NNNNNN" is your six-digit FICE code. For example, "edc001234" (lower case 'edc'; leading zeros required in the FICE code).

For PASSWORD: Enter your password, case sensitive. Contact Torca Bunton at e-mail Torca.Bunton@thecb.state.tx.us for your password.

Each FICE code has a unique password assigned to it. Guard it to prevent unauthorized access to your data.

The data sent to the Coordinating Board goes to the "INPUT" directory and the edit and summary report files are retrieved from the "OUTPUT" directory. Detailed instructions are located at [Data Transfer Procedures for THECB Reports Using SFTP](#).

The data content of files will be defined in the Data Processing Record Layout of each report in this manual. The format and content of the HEADER and TRAILER records are critical and must be valid. Identification of the data depends totally on the accuracy of the information contained in the header record.

Edit Summary Report Year-to-Year Comparisons

The standard Summary Report is compared to the previous year to aid in early detection of potentially erroneously-reported data. It shows the percentage increase/decrease of items and evaluates the items identified with a Review message. If the original report had only one column, the comparison data is in the adjacent column. If the original report had multiple columns, the comparison data is in the next row and asterisks are printed below the column in question.

For the enrollment and degree reports, if the absolute value of the difference between the current year and prior year item is:

- 1) less than 50, a Review message is not printed;
- 2) between 50 and 10,000, a percentage change greater than 25% is identified;
- 3) between 10,000 and 100,000, a percentage change greater than 20% is identified; or
- 4) greater than 100,000, a percentage change greater than 10% is identified.

CERTIFICATION TRACKING

The goal of these procedures is to have the CBM reports collected by the Educational Data Center and certified by the institutions as available for use within four working weeks of the due date. Since there are six edit cycles each workday, turn-around time should be less of an issue. Also, the desire is to have the most current data available for formula committee work, accountability measures, and appropriation requests. The follow-up procedures for ensuring timely certification of the reports are:

1. The EDC Data Analyst will telephone or e-mail the Reporting Official if a specific report is not received within two days after the due date.
2. An email from the Director of the Educational Data Center will be emailed to the Reporting Official if the report has not been received and certified by the seventh working day after the due date.
3. An inquiry letter will be faxed to the Vice President for Academic Affairs, or the equivalent, from the appropriate Assistant Commissioner if the report has not been received and certified by the twelfth working day after the due date.
4. A letter indicating that the certification of the CB report is delinquent will be faxed to the President, or the equivalent, from the Deputy Commissioner if the report has not been certified by the end of the third working week after the due date.

CHANGES TO CERTIFIED REPORTS

- A. Changes to certified data will not be permitted unless an executive officer of the reporting institution requests the change in writing and the reporting error would have a significant impact on future year funding or statistical analysis.
- B. Requests made prior to the data being published may be approved by the Educational Data Center and must not delay standard publish dates.
- C. Requests to change data which are already published must be approved by the Commissioner.

ICU General Reporting Issues

CERTIFICATION STATEMENT INSTRUCTIONS

Certification indicates that the data are error-free and available for use. When an edit for a CBM report is returned to the reporting institution, one of two actions is required:

1. If the edit reveals flagged items, corrections should be submitted for all errors and for questionable items where necessary. Items that are not within the tolerances allowed are considered in error and are identified with asterisks on the line below the specific item. If the item is only questionable, dashes are placed immediately below the item on the edit report.
2. If all the information is correct, the reporting official should certify the report by a certification statement to the Educational Data Center. This can be accomplished by the following methods:
 - a. The reporting official may send an e-mail message to the Data Analyst which includes in the body of the message the certification statement "I hereby certify ..." and identification of the name and FICE code of the institution, the name and title of the reporting official, the date of certification, and the CBM report ID, semester, and year of each report being certified.
 - b. A certification statement on paper may be prepared and mailed or faxed to the Educational Data Center. It should include all of the information listed in the item above with the signature of the reporting official, as illustrated by the following example.

The Coordinating Board uses restricted admission codes to distinguish students who have a declared major in a particular discipline from those who are actually admitted to a certificate or degree program through a restricted or separate admission process. The distinction provides more accurate enrollment and graduation numbers in key, high-demand occupations and the data are often linked to special legislative initiatives.

For the Board's purpose of counting graduates and calculating completion rates, this program is considered a two-year program.
- 12 Nursing (51.3801.00) Initial RN licensure, generic baccalaureate degree program – a student admitted to and continuing his/her enrollment in an approved BSN nursing program who is not a registered nurse. SUMMARY OF STUDENT DATA

HEADCOUNT: The headcount is a summation of CBM001 records. The headcount is summed by gender, age, first-time students, ethnic origin, classification, residence, and restricted program admission.

AGE: The age distribution is calculated by subtracting the date of birth (Item #6) from the beginning date of the semester. For this report, the beginning date of each semester is:

Fall: September 1
Spring: January 1

FIRST-TIME STUDENTS: The first-time-in-college summary is based on a code of '000001' in Item #8 and the high school code in Item #14.

SEMESTER CREDIT HOURS (SCH) REGISTERED, FIRST TIME: Item #9 can be used to determine first-time-entering students for full-time or part-time.

RESIDENCE: All residence codes from '001' to '254' are Texas counties. Codes '310' through '369' are other states and U.S. possessions. Codes '402' through '799' are foreign countries. Any other residence code will not be valid.
