

WORKSHOP

SEG WORKSHOP

Full-waveform Inversion: Filling the Gaps

30 March–1 April 2015
Abu Dhabi, UAE

SEG Middle East
Society of Exploration Geophysicists
The international society of applied geophysics

Date: 7 January 2015
To: Arthur Weglein
University of Houston

Dear Arthur Weglein,

Following the success of the SEG FWI workshop in April 2013, Society of Exploration Geophysicists (SEG) is proud to announce the **2nd edition of the Full Waveform inversion: Filling the gaps workshop**, to be held from **30 March- 1 April 2015 in Abu Dhabi, UAE**.

The objective of this workshop is to discuss the challenges, difficulties and solutions (either potential or already tested) in full waveform inversion (FWI) for applications in resolving the onshore near surface, shallow water, unconventional resources and offshore subsalt.

On behalf of the technical committee, SEG would like to extend an invitation for you to be a **Keynote speaker** for the topic of **"Direct Inversion"** at this workshop. The time allocated for the keynote speakers is 20 minutes presentation and 5 minutes Q&A session. This invitation is based on your interest and experience in the field and your ability to provide critical view in this effort to share knowledge throughout the oil and gas industry.

Should you accept this invitation, kindly submit a brief abstract & abstract title to Ozlem Kocak - SEG Middle East, Event Planner on okocak@seg.org before 27th January, 2015. Please note that per SEG policy, travel expenses and registration fees for the workshop will be the Speaker's responsibility.

However, should you be unable to participate, kindly update us before 15th January '15. We look forward to your positive response.

Sincerely yours,
