

2017 Finite Element Rodeo

March 3rd—March 4th

The 2017 edition of the Finite Element Rodeo will be held at the University of Houston on Friday and Saturday, **March 3—4, 2017**, beginning early afternoon on Friday and ending mid-afternoon on Saturday.

The Finite Element Rodeo is an annual, informal conference on finite element methods that rotates between several universities in Texas and Louisiana. In the beginning, we ask for all those willing to speak to come forward. We will use this information to determine the length of the talks and arrange a schedule. The total available time is then divided by the number of speakers. Usually, the time allotted per talk is 10-15 minutes. Talks by Graduate Students and Postdocs are particularly encouraged.

Workshop Venue: The workshop will be held in room 232 of the PGH building.

Accommodation: The Hilton University of Houston

Registration: The registration cost is **\$25** for participants attending the Friday evening dinner and **free** for attendees not going to the dinner. The cost for spouses and other guests of participants who wish to attend the dinner is **\$50** plus tax.

Please visit this link to **register** and view more information about the event:
