CBM003 ADD/CHANGE FORM

☐ Undergraduate Council  or  Graduate/Professional Studies Council
☐ New Course  ☐ Course Change
Core Category: Math/Reason  Effective Fall 2014

1. Department: MUSIC  College: CLASS

2. Faculty Contact Person: Tim Koozin  Telephone: 713-743-3318  Email: tkoozin@uh.edu

3. Course Information on New/Revised course:
   • Instructional Area / Course Number / Long Course Title:
     MUSI/2214 / Techniques of Music Since 1900
   • Instructional Area / Course Number / Short Course Title (30 characters max.)
     MUSI/2214 / TECHNIQUES OF MUSIC SINCE 1900
   • SCH: 2.00  Level: SO  CIP Code: 5009040003  Lect Hrs: 2  Lab Hrs: 0

4. Justification for adding/changing course: To meet core curriculum requirements

5. Was the proposed/revised course previously offered as a special topics course?  ☐ Yes  ☐ No
   If Yes, please complete:
   • Instructional Area / Course Number / Long Course Title:
     ___ / ___ / ___
   • Course ID: _____  Effective Date (currently active row): _____

6. Authorized Degree Program(s): B.M., B.A.B.S.
   • Does this course affect major/minor requirements in the College/Department?  ☐ Yes  ☐ No
   • Does this course affect major/minor requirements in other Colleges/Departments?  ☐ Yes  ☐ No
   • Can the course be repeated for credit?  ☐ Yes  ☐ No (if yes, include in course description)

7. Grade Option: Letter (A, B, C, ..., )  Instruction Type: lecture ONLY  (Note: Lect/Lab info. must match item 3, above.)

8. If this form involves a change to an existing course, please obtain the following information from the course inventory: Instructional Area / Course Number / Long Course Title
   MUSI/2214 / Techniques of Music Since 1900
   • Course ID: 34721  Effective Date (currently active row): 82205

9. Proposed Catalog Description: (If there are no prerequisites, type in "none").
   Cr: 2. (2-0). Prerequisites: MATH 1310; MUSI 2210 and passing grade on Theory Proficiency Exam III.
   Description (30 words max.): Study of compositional practices of the twentieth century and later, through analysis and composition exercises.

10. Dean’s Signature: ___________________________  Date: 10/8/12

   Print/Type Name: Sarah Fishman
REQUEST FOR COURSES IN THE CORE CURRICULUM

Originating Department or College: Music
Person Making Request: Timothy Koozin
Telephone: (713)743-3318
Email: tkoozin@uh.edu
Date: September 3, 2012

Course Number and Title: MUSI 2214. Techniques of Music since 1900

Please attach in separate documents:
☐ Completed CBM003 Add/Change Form with Catalog Description
☐ Syllabus

List the student learning outcomes for the course (Statements of what students will know and be able to do as a result of taking this course. See appended hints for constructing these statements):
Students will attain fluency in compositional practices of the twentieth century and later. Students will be able to analyze representative music literature and compose musical exercises involving advanced chromatic tonal harmony and post-tonal techniques.

Component Area for which the course is being proposed (check one):
☐ Communication
☐ Mathematics
☐ American History
☐ Government/Political

Science
☐ Language, Philosophy, & Culture
☐ Creative Arts
☐ Life & Physical Sciences
☐ Social & Behavioral Science
☐ Component Area Option

Competency areas addressed by the course (refer to appended chart for competencies that are required and optional in each component area):

☐ Critical Thinking
☐ Communication Skills
☐ Empirical & Quantitative Skills
☐ Teamwork
☐ Social Responsibility
☐ Personal Responsibility

Because we will be assessing student learning outcomes across multiple core courses, assessments assigned in your course must include assessments of the core competencies. For each competency checked above, indicated the specific course assignment(s) which, when completed by students, will provide evidence of the competency.
Provide detailed information, such as copies of the paper or project assignment, copies of individual test items, etc. A single assignment may be used to provide data for multiple competencies.

Critical Thinking:
Students will be engaged in musical analysis, which involves applying structured thinking to model musical processes in works studied. In the attached quizzes and Analysis Project, students will identify and model musical elements and processes with technical symbolic markings, identify and explain factors relevant to musical performance, and provide a critical appraisal of style elements. The appropriate use of analytical tools will require that the student gain an understanding of each tool’s limitations. Music since 1900 has often been eclectic, requiring performers and listeners alike to have both a diverse set of tools with which to approach the music, and the judgment to know which tools will yield the most reasonable results. Students will be required to develop convincing and logical arguments, which will in turn demand that they expand their formal reasoning skills and command of logic.

Communication Skills:
The attached Analysis Project and Paper Assignment illustrate that students will develop skills in explaining musical elements and processes verbally, as well as through symbolic musical representations. The essential goal in this course is that the student achieve a broad understanding of the musical techniques in the era after ca. 1900, in sufficient depth to enable competent performance of music using these techniques. Students will develop mastery of new materials and their associated terminology/symbology, enabling musical communication in more informed musical performances and verbal communication in more nuanced critical discussion of music.

Empirical & Quantitative Skills:
Analysis of much music composed after 1900 is now couched to a considerable extent in mathematical terms, including applications of set theory. Even more traditional musical phenomena, being essentially abstract, are represented symbolically. This is documented in the attached exercises.

Teamwork:
N/A

Social Responsibility:
N/A

Personal Responsibility:
N/A

Will the syllabus vary across multiple section of the course? ☐ Yes ☑ No
If yes, list the assignments that will be constant across sections:

v.5/10/12
Inclusion in the core is contingent upon the course being offered and taught at least once every other academic year. Courses will be reviewed for renewal every 5 years.

The department understands that instructors will be expected to provide student work and to participate in university-wide assessments of student work. This could include, but may not be limited to, designing instruments such as rubrics, and scoring work by students in this or other courses. In addition, instructors of core courses may be asked to include brief assessment activities in their course.

Dept. Signature:

v.5/10/12
TECHNIQUES OF MUSIC SINCE 1900: SYLLABUS
MOORES SCHOOL OF MUSIC
UNIVERSITY OF HOUSTON

MUSI 2214, [Date, Time ]
[Professor] Section 00000 rm. 000 [Email] [Course web page]
office: 000 [Phone]

Prerequisites: MUSI 2211, MATH 1310 (core curriculum requirement) and passing grade on Theory Proficiency Exam III.

Course Objectives and Learning Outcomes include fluency in compositional practices of the twentieth century and later. Coursework includes studies in advanced chromatic tonal harmony and post-tonal techniques, analysis of music literature, and composition exercises.

Required Texts:
The e-Workbook is available to UH students here (password required):
http://www.uh.edu/musicstudents/theory/Workbook_part_3.pdf (chromatic)

Course Schedule (subject to change):
Midterm Exam: [Date]
Semester Composition Project due: [Date]
Final Exam: [Date]

Grading and Policies:
Exams (2 x 25%) 50%
Daily work 40%
Semester Composition Project 10%

Four absences are allowed for any reason. There will be no “excused” absences beyond that number.
Fifth absence lowers final grade by a minus.
Sixth absence lowers final grade by an additional minus.
Seventh absence results in being dropped from the course (resulting in a W or F as appropriate).
Tardies: Three count as one absence.

Last day to drop without a grade: [Date] Last day to drop or withdraw: [Date]
Assignments are due on the appropriate day at the start of class.
Please obtain the phone number of a classmate to get information in case of absence.
Always bring score paper.
Students are expected to be in class and on time. No late assignments will be accepted.

UH Policies on Academic Honesty can be found online at http://www.uh.edu/provost/policies/uhhonesty_policy.html. You are expected to do your own work on all assignments, quizzes, and exams unless instructed differently. Problems with academic dishonesty will be handled according to the procedures outlined in the undergraduate student handbook and in the undergraduate course catalog. Please note that the mere suspicion of academic dishonesty is enough to initiate official action; please do not put yourself in the position of having to deal with this kind of situation.

Students with disabilities are asked to bring to the instructor's attention any special accommodations they may require. Students will document a disability with the UH Center for Students with Disabilities (phone: 713 743 5400). The CSD will provide recommendations to the instructor and student to help in accommodating a disability.

last class period: *Final Exam* analysis project due

[date] Final ([time]): *composition project, to be submitted and performed*
Write a paragraph comparing the harmonic languages of the two pieces below. In particular, address the issue of functionality.

**Will You Love Me in December As You Do in May?**  
Ernest R. Ball

**Giant Steps**  
John Coltrane
MUSI 2214: Techniques of Music Since 1900

Analysis Project

**Topic:** Analysis of a 20th-century work of your choice (must be approved by the instructor; see under Guidelines, below).

**Length:** 3-5 pages, typed, double-spaced, including short examples/illustrations; the complete score must accompany the paper.

**Due:** [Date.] Late papers cannot be accepted.

**Suggested modus operandi:**

1. Select music for analysis (see under Guidelines, below).
2. Analyze, using all relevant techniques and concepts learned in this course (and in previous semesters). SHMRG will be a useful checklist.
3. Organize your findings; plan a logical and coherent presentation. An outline will be invaluable for this. Note what short examples or other illustrations will be needed. (See under Help, below.)
4. Write a draft of the paper.
5. Prepare any short examples, graphs, etc.
6. Read your draft critically, marking corrections.
7. Prepare your final copy, placing examples, etc., neatly and logically.

**Guidelines:**

1. a. The piece chosen for your analysis should be of moderate size, or even on the short side, depending on its complexity. It would also be possible to write on a small collection of miniatures.
   b. It should be from your own repertoire, or something in which you have a particular interest.
   c. The work must be not only from the 20th century, but of the 20th century.
   d. In any case, the instructor's approval is necessary, so begin looking into this without delay.
2. **Do not mark up library copies!** If you use a library copy, make a photocopy to mark up (and hand in). You may prefer to do this even with your own scores.

**Help is available:**

1. There are a number of books in the Music Library (and in the Main Library) dealing with the writing of reports, papers, etc. A brief guide to these is on the instructor's reserve in the Music Library.
2. The guide on reserve, mentioned above, also contains a few tips.
3. The instructor will be happy to help you at any stage of the process, *time permitting*—so get started early.
MUSI 2214
Paper Assignment

René Clausen, Psalm 150

This piece is on reserve in the Music Library, as is a recording. You will need to make a copy of the entire piece to submit along with your paper, which will consist of your responses to the following:

1. Identify the category of vertical sonorities found in mm. 1-6.
2. How is meter treated in mm. 1-37?
3. Provide a harmonic analysis for mm. 7-10.
4. What compositional device is employed in the Soprano, Alto, and Tenor in mm. 19-20?
5. What compositional device is employed in the Soprano and Alto in mm. 29-31?
6. Briefly discuss the metric/rhythmic situation in mm. 66-93.
7. Analyze the chords in m. 50, m. 60, m. 104, and m. 155.
8. What kind of chord occurs in the left and of the accompaniment in m. 53? In the right hand in mm. 94-95?
9. What scale is used in mm. 67-81? What is the local pitch center?
10. What technique best describes the music in mm. 133-147? Elaborate.
11. What scale is used in mm. 148-end?
12. What is the initial pitch center? The last pitch center? How are the pitch centers established?
13. Discuss the factors that shape the piece overall. Consider the various techniques used, the effect of tonality/centricity, the use of dissonance, rhythm, meter, tempo, etc. Also take into account the text as an organizing force. You may wish to draw a chart, and refer to that in your discussion.

Note that the order in which these items have been posed is not necessarily to order in which you must discuss them. Organizing your paper logically will be a large part of your task in this assignment.

Your paper must be typed (word-processed) with proper margins. Musical examples, if used, must be complete, and neatly and logically placed. A copy of the score, with appropriate (and NEAT) markings should be attached as an appendix. If you do not use the interlinear examples, please be sure that your references to the music are clear and specific. Collaboration is not acceptable on this assignment. It is not necessary that you use any sources except the score and your own analytical skills, but if you do use other sources of any kind, they must be used and cited properly.
COMPOSITION PROJECT

What: A piece for any instrument, voice, or combination available in class. (If you wish to use other/additional forces, you must get the extra people to class for the performance.)

Content: Your piece should display several of the techniques studied this semester. Be sure to consider rhythm and meter, and perhaps texture and timbre, as well as melody and harmony.

Length: Pieces should run about 2 minutes in performance; pieces at slower tempi will probably need to be a bit longer.

Form: That is up to you. Sectionalized forms (ABA, ABCA, ABCBA, rondo, etc.) often work well for this material; contrasting techniques may be used to create contrasting sections.

Modus operandi: Composers work in many different ways. Some find it easiest to begin with a motivic idea or two; others find it best to begin with a formal plan for the piece as a whole. In either case, begin working early, and jot down ideas in a “sketchbook.” Once the materials have taken shape in your mind, work out the details (transitions, accompaniment patterns, etc.). Try to have a draft completed soon enough that you can make small revisions, if needed, before preparing the final copy.

Final copy: Must be neat! Pencil is acceptable; just be sure it is dark enough (people will have to read these). All notational conventions should be observed: braces/brackets for systems, barlines crossing the appropriate staves, etc. Performance directions, including tempo, dynamic, and articulation markings, are important. The score, which is to be handed in, may be in C. Parts must be provided as necessary, and must be transposed if appropriate.

Grading: The compositions will be graded primarily on the craftsmanship displayed in them: the choice and handling of the materials, the musical structure of the piece, and the handling of the medium chosen.

Help is available. In many cases, the pieces you have consulted for your analysis paper and scavenger hunt may serve as models.

Due: At final exam time—[Date & time]—ready for performance.
Exercises

Calculate interval class vectors for the following excerpts.

2. Schoenberg, Klavierstück, op. 19/4, mm. 1-2.

3. The Dorian, Phrygian, and Lydian modes.
4. Webern, Five Movements for String Quartet (1909), IV

420. Cinque Frammenti di Saffo

Dallapiccola

Allegretto molto comodo \( (J = 58-60) \)

(con fantasia; tranquillo)

con Ped.

Canto \( ppp \) (tranquilo; recitando)

Pie - na splen-de - va

(non arp.)

La lu - na quan - do pres - so l'al- ta - re si fer -

\( p_p \) \( ppp \) sost.

\( T r i p t ., V i a ., H n . \)
Full shone the moon, when by the altar they stopped. And the Cretian woman, with music, upon light feet, began carefree to go about the altar, upon the tender young grass.
Tall chords and additive harmonies, along with estinatos, show 
andante technique. Melodic ideas contribute to the organization 
of this selection.

yet my soul drew back, Guilt of dust and sin.

The composer uses chromatic planting of inverted chords. Although the 
long pedal tones emphasize e doré the planina causes the piece to seem pandiatonic.
II. Write the following scales/modes, on the "tonics" indicated. You may use any clef(s) and key signatures you wish.

1. Mixolydian mode, on E.

2. Whole-tone scale, on Eb.

3. Pentatonic, do = Gb.

4. Phrygian mode, on C#.

5. Octatonic, on F. whole step mode

Happy Holidays!
you two
1. Identify the principal techniques used in the following five excerpts. You should include detailed analyses of a few chords, etc., to back your generalizations.

I. Lent. pesante $d=112$ (trumpet)

Polyharmonic and unusual dissonant triadic relationships within each bar contribute to this excerpt's polytonality, what keys are established?
3. **Bonus! Name the piece. (Double Bonus! Name the children.)**

In ostinato accompaniment, secondal and quartal harmony, additive harmony, and tall chords are evidence of pandiatonicism.

4. Also, calculate interval vectors for the first two chords.

12 tone serialism. A rhythmic motive helps create almost an ostinato in the accompaniment.
