v.5/10/12
Because we will be assessing student learning outcomes across multiple core courses, assessments assigned in your course must include assessments of the core competencies. For each competency checked above, indicate the specific course assignment(s) which, when completed by students, will provide evidence of the competency. Provide detailed information, such as copies of the paper or project assignment, copies of individual test items, etc. A single assignment may be used to provide data for multiple competencies.

**Critical Thinking:**
Critical thinking will be demonstrated by students in the class writing a 5-7 page essay. An example essay question is as follows:
Nineteenth-century Europeans saw the world as a rational, civilized, progressive place, with Europe at the center. Yet in the 20th century, Europe experienced a devastating series of wars and revolutions marked by brutality and mass killing that left Europeans doubting their culture and civilization. How do Freud, Conrad and Borowski reflect the loss of faith in Enlightenment ideals from the end of the 19th century onward? What are their views of progress, rationality and human nature? In what ways do they see Europe's achievements being used to destroy rather than build civilization?

**Communication Skills:**
The essay described above will demonstrate student communication through writing.

**Empirical & Quantitative Skills:**

**Social Responsibility:**
The topic of the essay described above will demonstrate student awareness of social change around the world.

**Personal Responsibility:**
The topic of the essay described above will demonstrate student personal engagement with the past.

Will the syllabus vary across multiple section of the course?  
Yes  ☑  No  □
If yes, list the assignments that will be constant across sections:
Essay and Final Exam

Inclusion in the core is contingent upon the course being offered and taught at least once every other academic year. Courses will be reviewed for renewal every 5 years.
The department understands that instructors will be expected to provide student work and to participate in university-wide assessments of student work. This could include, but may not be limited to, designing instruments such as rubrics, and scoring work by students in this or other courses. In addition, instructors of core courses may be asked to include brief assessment activities in their course.
